The United States Air Force Academy, Colorado Springs, CO

Graphic Designer and Printer Operator ... 3 years 6/01/20 — 6/01/23

Higher Air, Space, and Education Industry

Graphic design contractor at MediafusionLLC, a small multi-media team assisting customers in athletic and academic departments at the Academy. Working closely with the director of marketing, I conceptualized and designed the *Official 2023 USAFA Falcon Mascot Symbol* to modernize the spirit of the Air and Space Force.

I primarily designed and printed maps, infographics and academic signage around the institution allowing 1,000,000+ cadets, faculty, and visitors including **Elon Musk** and **President Joe Biden** locate their way around the 18,500 acre campus. I printed materials that support events like the Planetarium, Athletic Tournaments, Graduation, the National Character and Leadership Symposium (NCLS), and more.

Advanced Conceptual Spacecraft Artist ... 3 months ... 6/03/19 — 9/03/19

Higher Space Industry

Artist intern assisting with missions at NASA. The COMPASS team at the **Glenn Research Center** conceptualizes, designs, and executes architecture for spacecraft that allows us to know more about celestial properties and human space travel. I helped stylize missions for stakeholders and the public, such as the *martian ascent vehicle*, the *nuclear electric propulsion system*, as well as a submarine on Saturn's moon, through the use of poster design and display signage.
